STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Travelling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continue it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons travelling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Hooks for all Stages leaving town will be kept at this House.

In connection with the above are good Stables, with attentive and careful Hostlers.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber. It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves, and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of guests, the proprietor hopes to receive a liberal share of patronage. NATHAN PERRY, Jr.

TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we am labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling into the Lacred jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

(Member of the Royal College of Surgeons, 1827, Licentiate of the Hall (1832) and Venerian Medical Reviewer, &c.)

Racical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, the cure of the world renowned Dr. CULVERWELL in London, the most successful practitioner in this line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues; its salutary effects is most instantly felt, and it will doubtless at once superseded all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that cheap and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be needed, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eternal benefit to many.

Dr. CULVERWELL's advertisement is a perfectly novel plan of treating these diseases. In the interest of humanity, recommended to physicians throughout the land, to them every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 176 Grand-St. New York. Sole Agents for the United States and Canada. Nov. 19. d&wly.

LINCOLN'S

WATER PROOF BLACKING

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 24 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear two as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

GREAT

American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, Late Agent of the U. S. Patent Office under the Act of 1837, determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind can, the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurement of patents in the United States and foreign countries, prepared, and advice rendered on legal and scientific matters respecting infringements, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

☞ During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity who had as many business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the first solicitors and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and in a position to secure them an early and favorable consideration of their claims.

EDMUND BURKE,

Late Commissioner of Patents.

(For the present Commissioner.)

☞ August 17, '55.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice at the office. I regard him as one of the most capable and successful practitioners with whom I have met in my official intercourse. CHARLES MASON,

Late Commissioner of Patents.

550,000 Acres Selected

Pine and Farming Land

IN MICHIGAN.

THE SAINT MARY'S FALLS

SHIP CANAL COMPANY

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan, on and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large, and capable of floating logs at all seasons of the year, with harbors at their mouths, on the Lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, providing already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great Lumber Markets of the country.

Tracts of from 40 to 40,000 acres

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West;

and as they contain enough of the PINE OR PINE TIMBER to more than pay for the land, finding, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, fruits, and products raised in the most favored portions of the West.

Companies of 10, 15 or 20 Persons,

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual exploration by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company in Detroit, Michigan.

Copies of Maps, field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

☞ Large Map of the State, showing the lands of the Company, will be found at public places in most of the principal towns in the Eastern and North-western States. GEO. B. FROST,

St. Mary's Falls Ship Canal Company's Land Office, Detroit, Nov. 1, 56. 1y

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,*

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and *No Matter of How Long Standing.*

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely vegetable compound. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Health restored will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.* And as a medicine which must benefit every body, from the simply delicate to the confirmed and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from a impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all early Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently, much injured, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. This, therefore, of the highest consideration and importance to the public and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two to six spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Fluid Extract, and one bottle fully equal in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

[Concluded from Tuesday's Courier—accidentally omitted in publication.]

have I had—how uneasy I have been about you! but thank God, I have you again," said her face brightened up with a smile of joy.

She paid the bill, and triumphantly led him home. T——, accompanied them, and said he had a few more kreutzers in his pocket; he had bet or go and get them something to eat. And then you should have seen the darling girl, how she busied herself, and how gladly she set about it; the young man felt as if he could fall at her feet and worship her. It was late before T—— went home that night; but the leap from the Main Bridge was no more thought of. He came to the house every evening in order as he said, to share with them his scanty earnings.

About a fortnight after, as he was go as away one evening, he said, to Bertha: "Will you become my wife? I am only a poor clerk, but I am honest and upright."

Bertha blushed, and cast her eyes to the ground.

"Can you love me, Bertha?" he kneeling in an overflow of feeling.

She was silent, and did not raise her head; but she held out her hand. He seized it, and kissed it fervently.

"Bertha," said he, "I love you a measure; you have saved my life."

A few days after, the young couple, simply but respectably attired, and accompanied by Herr Schmidt, went to church, where they were married in a quiet way. When they came out man and wife, an elegant carriage was standing at the door, and a footman in rich livery let down the step.

"Come!" said the happy husband to his bewildered wife, who looked at him with amazement.

Before she could utter a word, the three were seated in the carriage, driving away at a quick pace. The carriage stopped before a splendid house in the best part of Frankfort.—They were received by a number of domestics, who conducted them to apartments decorated in the most costly style.

"This is your mistress," said T—— to the servants; "and I order commands you have obeyed them in every respect. My darling wife," said he to the astonished Bertha, "I am Karl T——, one of the wealthiest men of this city. This house is yours, and these servants will attend on you. I hold a pledge from you that never will you corrupt your heart. Here it is, in the precious book of your mother, written by your own hand: 'I then will to give me, if the treasures of the world, O Lord, I would still remain Thine humble servant. For what is gold before Thee, that looketh into the heart? Thou is my heart, and Thine it shall remain.'"

"It is the Lord's and thine," said the blushing Bertha, whispered Bertha, and laid down in his arms.

"Hurrah for the leap from the Main Bridge!" exclaimed T——, embracing his fair young bride.

The Gospel according to Democracy.

Those who express so much pious horror of what they term political preaching, desire, they say, "the pure gospel;" but the pure gospel, as they understand it, must exclude every kind of preaching which may denounce the individual or national sins of the present day, especially if any one of these sins should happen to be patronized or defended by either of the political parties. These gentlemen would allow their ministers to preach all doctrine upon *original* sin, or upon the particular sins of the individuals; but their idea of the *pure* gospel would exclude all preaching upon the practical wickedness of this age and country, especially if that wickedness existed in high places and should be countenanced or committed by party administrations. The abominations of Nesh's wicked cotemporaries, or of the pagans who were extermination in Palestine by the Jews, may be freely denounced, but the abominations of modern slavery, and the robberies, murders and ravishings committed in extending that institution, must not be alluded to from the pulpit, because slavery has become connected with politics, and some political party or other might be injured by the discussion. Adultery, fornication, and kindred sins among the ancients are worthy of all condemnation, and the judgments of Heaven upon such as practised them in olden time, may be properly dwelt upon, even in "gospel" preaching—but according to the views of these sensitive religious politicians, modern polygamy as it exists to-day, with unblushing and brazen effrontery, in one of the Territories of our Union, must not be denounced as sin, because forsooth, a political party has set up a certain dogma about "popular sovereignty," under which it may become necessary for that party to admit into the Union a State which legalizes and fosters polygamy.

This, we say, is the gospel according to modern democracy. But we do not think so. We believe that clergymen who perform their duty conscientiously will not confine their preaching to abstract matters of religious faith, or to a denunciation of sins committed before the flood. They have quite as much to do with the practical sins of the present day, both individual and national—and should preach against them without fear or favor. Not politicians, or party men, should they so preach, nor have they so preached, as far as we have any knowledge—but as faithful ministers of God's word, which denounces sin alike in the highest and the lowest—in the private individual or in the ruler of the people. They have viewed slavery as a great moral evil, just as our fathers and the fathers of these modern democrats viewed it—as an evil which, in its impending extension threatens vast evil to the cause of morality and religion in this land, and involving imminent danger to our Republican institutions and to all the hopes of freedom and human progress, with which the cause of religion is intimately connected. Thus viewing the question, the pulpit would have been manifestly recreant to its duty if it had failed to allude to the portentous evils which threaten the country, or if it had failed to speak out against the outrages and enormities committed by the propagandists of slavery, and against the men in high places who permitted, or excused them. That the pulpit has been faithful and fearless in this duty should be said to the honor of the clergymen of the North; and those who allege that they have done it from mere political or partisan motives know that it is a slander. It is not the fault of the clergy if slavery has become a political question—if one party is arrayed practically against it, and the other in favor of it. It is not their duty *therefore* to ignore the evil, the danger and the crime.

Christ preached the gospel; and *he* preached against the sins of his time. If Christ were on earth to-day, and to appear among us, he would not preach the gospel according to our modern political cenacles of the pulpit. He would not be likely to suit them at all. If they sat under his preaching, it might perchance touch them of their party in some place, and they would most likely feel impelled to evince their holy horror of "political priests," by walking out of meeting, or withdrawing their support from the society. They might not crucify him for preaching unpalatable truth, but they would be likely to denounce him in the Banger Journal.

Let us resolve, however, that truth *may* be faithfully preached in these latter days, and has been thus preached, in spite of attempted proscription—that the clergymen are sustained by the better sense of the people—and that those who would stop the mouths of faithful and conscientious preachers, have not strength according to their will.

The New Franklin Baptist Church. The new and handsome church edifice on Essex St. has been built by the Freewill Baptists of this city. This society were compelled to build this year, not owning the land on which their old house stands, and the lease having expired. To purchase a lot and erect such a house as they needed was a heavy task for so small a society. They however commenced,—adopting as their motto "pay as you go." This enterprise contributed one two and three hundred each; one female member of the Sabbath School, the Sewing Circle, and E. H. Fogg's Sabbath School class of young ladies, contributed a hundred dollars each—and thus with assistance from the citizens of Bangor and other places, they have erected their house, and finished the outside (excepting the tower) and the vestries. Completed to finish the work before winter, there are some bills not paid.—They propose to have a fair to raise money to pay up so far as they have gone. The Fair will be held at their new vestry on Essex St. on the evening of the 11th of this month. They need assistance at this crisis, and we hope our citizens will be present at the levee, and purchase articles as they can afford. The ladies have prepared many nice articles for sale, and there will be refreshments provided.

The building will be an ornament to the city. It has been carried so far by large sacrifices on the part of the society, and it will be only characteristic of the citizens of Bangor if they aid it at this time and give them a good lift.

Runaway Escape. On Monday afternoon, by the breaking of a stage around his barn, John S. Hayward, Esq., was precipitated to the ground, a distance of about eighteen feet—striking upon his side and head. He was recovered senseless by the shock—but was wonderfully preserved from serious injury; breaking no limb, and escaping with a few bruises and some soreness internally. He was able to breakfast with his family next morning.

A straight subscriber to a country paper was struck from its mail list, because he wouldn't pay up. The delinquent's wife insisted wrathfully that she knew what was newspaper law—but she did—the proprietor was bound to send the paper until all arrearages were paid!!!

On Sunday, 23d ult, the house of Rev. Dan Foster, of South Paris, was destroyed by fire. Insured—valuable contents, including a fine library, were also consumed. Loss over and above insurance, from $1500 to $2000.

The Garland Acorn, a paper from which full oaks may grow in time, is published from original contributions by the students of Garland High School. It is well filled. Edited by P. W. Swett and Miss M. J. Bartlett.

Surveyor's Office, Dec. 2, 1856.

Mr. Buchanan and the Pacific Railroad. Mr. Buchanan's Cincinnati letter on the subject of the Pacific Railroad, has already begun to brew trouble at the South, and the Charleston Standard says in reference to this matter:—

"We would hesitate to counsel a course so revolutionary as that of withholding from Mr. Buchanan the electoral vote, but it is a subject worthy of serious consideration whether we should yet go on and inaugurate a President, one of the very first measures of whose Administration will be that which of all others will be most to the hand of the Black Republican party—consolidation in the Union. They aim at, and no measure, not even the admission of Kansas as a Free State, will lead so directly to such a consummation."

We understand that the Centre to hear Col. Benton, on Monday evening, in Boston, was so great, that all the single tickets were exhausted long before dark, and that premiums of *five* and *ten* dollars were freely offered for tickets, and refused by ticket holders.—*Lowell Journal.*

The cost of a message by electric telegraph between the Colonies and London is said to be $100.

The Kansas Aid Movement.

Mr. Editor:—

To the long and unequal contest which Freedom is yet to wage with Slavery, upon the plains of Kansas, no true lover of American institutions can be indifferent. No earnest heart can withhold its sincere prayers to Heaven in behalf of the right—or its eager hand of help to those who are bravely doing the martyr work in the great cause. *How* to do, and *what* to do, are the questions which rise in the hearts of thousands around us, who having the earnest will, look only the best way to work. Men have striven manfully and voted coolly in New England, but still the power of government is on the side of Slavery—and voting for the next four years will not avail the murdered, and the robbed in Kansas. Other help than through the ballot-box, must reach *them*.

As has been said heretofore—"Where is their any hope? Only in this. 'Keep the free State men there, and let others go.' Supply them in their need with food and clothing—support them until they can support themselves. Let them go, not as soldiers, but as settlers, with a determination to remain, until the bayonets of the U. S. Government drive them out by such from the territory. The contest may be long and unequal—but all of hope the friends, is in the people on the spot, and they must be men ready to fill a martyr's grave rather than retreat."

To accomplish this end, all may work.—Women may do their share. Every woman who can, and to accomplish in any way, contribute to the support of the Free settlers in Kansas, will be we could to this, perhaps protracted and painfully laborious work of love. But if there are men around us by thousands to peril their lives, to preserve the fair land from the curse of Slavery, shall it be said that the people of the North gave grudgingly the food and raiment to support them there? Never, we hope!

Every day brings account of the true will offerings poured upon this altar of Freedom, in New England—the sacrifice of our gentlemen—and we believe the gifts will not fail, if wisely planned, and judiciously offered. Some system which should arrange a monthly tribute of a small sum, either in labor, or in money, to be repaid, so long as the fate of Kansas hangs suspended, for even as long as the cause of Freedom is in peril from our Southern Masters—would not only give material aid, from regular and reliable sources, to the needy; but it would also keep our own hearts and prayers alive to the great cause which must ere many years decide the fate of this Republic.

We are glad to learn that the Ladies Kansas Aid Sewing Circle, which accomplished so much at our City in a few weeks since, designs to meet monthly and work or contribute for the same object, as our Kansas needs help. We hope there will be a very full meeting of ladies there on Thursday afternoon. All will be welcome who can earn by the needle, or contribute from the purse, five cents for the cause, and though this sum may seem small, yet if contributed *monthly* and *regularly*, from every woman whose heart is on the side of Freedom, even in New England, the support which would flow steadily to Kansas—from this source—would be by no means contemptible. In Maine alone, we have 70,000 voters for Freedom, and for every man who votes for it, we venture to say that there are two women, over 15 years of age, who build and would, earn five cents a month for the same cause. An organization, which would call out and set to work 100,000 of these, would contribute $5000 monthly to Kansas—and beside the do less, (and of more power perhaps), would be the conscious working sentiment, prayer, or force for freedom which those 100,000 women would represent. Almost every town in New England has a Sewing Society, and now we often see accounts in the papers of sums received of them for Kansas. Shall we not form throughout our land one grand Sewing Society, that one half day in each month shall be animated and at work for it, is great and holy cause of Liberty? Sisters of New England, will you respond to the plan? The question of woman's voting has in excited many minds of late years,—but whether it be allowed to do so, it would be a great privilege, we think not probably be able to prove, in this generation. Let the problem remain;—but if we cannot vote, we can do something, perhaps equally efficient—we can earn money, to be given to sustain those who yield up life and all the makes life valuable, to the battle between Freedom and Slavery.

In conclusion, we repeat, we hope, that a full meeting of the women of our city on Thursday, will attest the interest we feel, and if those who cannot personally be present, will send their names and contributions, they will be gratefully received. The sum named for contribution is very small in order that no one may feel it to be a burden to pledge themselves to give that amount every month. Those who wish to give more need not be deterred from so doing, but a small sum that can be relied upon, is believed to be more efficient on the whole, than casual gifts of much larger amount. We believe too, that to draw large numbers of warm hearts into a *working* force for Freedom will be of more avail, than to raise the same amount of money from a limited class of contributors. If every woman who reads a newspaper in city and country, and wishes to aid the right side, will be one of such a society as we contemplate, who can estimate the consequences to the political battle for Freedom which must be waged in this country four years hence.

MARIA.

Hint to England. Young Lions.—It is probable not generally known, that whenever a woman has accepted an offer of marriage, all she has or expects to have, becomes virtually the property of the man thus accepted as a husband; and no gift or deed executed by her between the period of acceptance and the marriage is held to be valid; for were she permitted to give away or otherwise settle her property, he might be disappointed in the wealth he looked to in making the offer.—*Westminster Review. (London.)*

Schr. Sarah, Anson, with 40,000 feet spruce lumber, from Dublin, for New York, parted her chains in the Vineyard Sound, 30th, and went ashore on the south side of the bay, Tuesday. Crew landed safe and were well provided for.

Kansas.—A private letter written by Rev. Mr. Nute, from Lawrence, K. T., says that in order to protect his valuable stock, he hired than has been obliged to sleep under an open window with a Sharpe's rifle at his side. He says:

"Three horses have been taken from me during the last eight months, one by the U. S. Marshal's posse, and two by an officer of the militia, under the authority of a U. S. official; with the latter a wagon and double harness, which cost $175. My nearest neighbor has stolen two horses in the same way; another within a mile of us has received by more attention in this way, having no less than six excellent horses and a good wagon stolen from him by the invaders since the sack of Lawrence last May. I can enumerate losses of this kind in this immediate vicinity, amounting to over ten thousand dollars.

The whole amount taken from the territory over into Missouri, in the three general invasions, has probably exceeded ten times that sum. The whole loss to our people occasioned by this marauding has been more than three times that, i. e., $300,000. Hundreds of acres of corn have been destroyed by the cattle which range the prairies, for the want of fencing, which the settlers were prevented from building by the necessity of being in arms and away from their homes to repel their invasions.—Much of the crops will be lost for the want of the means of securing them.

Buchanan Minorities in the Free States. The majorities against Buchanan in the Free States, taking the aggregate of the opposition votes may be estimated in round numbers very nearly as follows:

Maine	32,000
New Hampshire	7,600
Vermont	28,000
Massachusetts	90,000
Rhode Island	6,500
Connecticut	10,000
New York	225,000
New Jersey	4,000
Ohio	40,000
Illinois	30,000
Michigan	23,000
Wisconsin	20,000
Iowa	16,000
Total	522,000
Deduct Buchanan's majority in Pennsylvania	4,500
In Indiana	7,000
	7,400

Leaves 514,600 as the majority against Buchanan in the free States. It is conceded that he has an actual majority in California.

Pulling with Right Spring. The Southern politicians have great contempt for those of the North, particularly those who act most thoroughly in concert with them. The Austin (Texas) State Gazette, of Nov. 1st, says:

The best appeal to the fears of the North, as we have always contended, and those made to the pocket of the Northern man. He can lay down all his principles and become quite a *conservative* when that is touched.

How do the "conservatives" keep this in precision of their southern brothers?

Heavy Burglary.—On Saturday evening, a gang of five burglars broke from the shoe store of Shulton & Hurd, Broad street, New York, about $40 000 worth of dress silks. They succeeded with the goods to the roof, and entered through the scuttle six other stores in the same block, all of which they searched for money, but found none. Their last one was to make a safe retreat with their plunder, but owing to some defect in their arrangements, they fell into the hands of the police. The property was restored and the burglars locked up.

A Fatal Nap. We learn by the Manchester Mirror, that Thomas Riley, an intemperate Englishman, started with two companions sometime Wednesday night, to get from Manchester to Suncook. Near the House of Reformation they laid down by the railroad track for a nap, which about 3 o'clock in the morning was interrupted by an approaching train, when Riley, in attempting to rise, was struck by the cars and killed.

Two villains in Tallahassee recently went into a house and attempted to violate a girl aged 16. She seized a gun, shot one fatally, and wounded the other.

"Did the ancients smoke?" is the paramount question now with German scholars. It is at present involved in an impenetrable cloud of smoke from the pipes of the disputants.

Daguerreotypes, Glass Pictures, Photographs.

It is not true that BURNHAM has given up the business of making Likenesses, as seems to be supposed by some. Burnham Brothers (formerly J. U. F. Burnham) are still at the old place, No 19 Main street, opposite Fenno & Hale's. They have recently been enlarging their Rooms, and are now better than ever prepared to accommodate their friends and the public. They have on hand a large and fresh stock of New Styles of Cases, Lockets Pins, Frames, &c.

GLASS PICTURES, sometimes called Ambrotypes made daily. By this process we get *Baby Pictures* nicely.

PHOTOGRAPHS:

This beautiful process of producing and multiplying Pictures, at small expense, is daily gaining ground. We are prepared to make these Pictures satisfactorily. It is fine for copying old Daguerreotypes, as very good Pictures may be made from poor Daguerreotypes; they may also be enlarged so as to be much more desirable—whole size busts made from the medium picture. They are the best Picture to send by letter, as the expense of postage is saved.

We invite the attention of our friends to specimens of this kind of Picture at our Rooms, No. 19 Main street, Bangor.

DAVIS' PAIN KILLER.—This article needs no comment from us, but the real merits of this valuable compound, supplied to give publicity to it in our Transcript. Mr. Jerry Davis, the manufacturer and inventor, is a gentleman for whom we entertain the highest respect, and any article he should offer to the public we should have the utmost confidence in. The Pain Killer we keep constantly on hand, and have done so for a number of years, and have administered it for all sorts of all descriptions, both external and internal, and have ever found it to be the best remedy extant. We well recollect its first introduction to public patronage; it was then sold in a few shops in this city; look at it now, the world are its patrons. A few days ago we published a testimonial certificate from Burnham, and we have often seen them from the most remote parts of the globe.

Reader, if you have not a supply on hand, we tell you you have, as it is almost indispensable, procure it at once, and whenever you want it again—in will save many a physician's bill.—*Presidential Daily Transcript.*

Jerry Davis' Pain Killer.—The Buffalo Christian Advocate says:—"We like Mr. Davis, for the moral and benevolent tendencies of his character and life. He manufactures and advertises known almost universally to be good and safe remedy for burns and other pains of the body. He is entitled to confidence and popularity, and so far as we can judge, he merits both. We know of no better, we should do so cheerfully, though we are not asked to notice him outside of our advertising columns. His Pain Killer should be in every family. The casualty which demands it may come unawares." Nov. 26 Stwdlw.w.

Holloway's Ointment and Pills, certain cure for Wounds and Ulcers. Thomas Thompson, of Batavia, N. Y., was afflicted all over his body with running ulcers, his life at last became quite a burden to him, as he was a helpless cripple to himself and an annoyance to his friends. In the hope of obtaining relief he consulted eminent medical physicians and surgeons, but his disease was so inveterate that it was considered hopeless. At this crisis he had recourse to Holloway's Ointment and Pills, and by persevering with these, for seven consecutive weeks, he was completely cured, and now enjoys the best of health. Nov. 26—d&w1m

Remarkable Fatality, and Singular Fact.—More than nine-tenths of the Colds neglected in New England result in Consumption; more than ninety-nine-one-hundredths of the cases of Consumption terminate in death, when all of the former and many of the latter might have been cured by the early use of Mrs. M. N. Gardner's Indian Balsam of Liverwort and Hoarhound. Sold by Weeks & Potter, 154 Washington street, Boston, General Agents.

J. S. Ingraham, Agent for Bangor—H. H. Hay, Sole Agent. n25 1wd

There are plenty of young gentlemen as well as plenty of gold ones, whose beards are turning gray, which gives the former a great deal of uneasiness, and exposes the age of the latter. To avoid those little perplexities, we advise such of our readers to use Prof. Wood's Hair Restorative, which will, in the course of a few weeks, change the hair to its natural color; it does not dye, but acts like the moisture of the hair restoratives, but produces a gradual change of color from the roots of the hair to the final end, and gives it a fine and glossy appearance. We have seen many persons who have used it successfully, and pronounced it the only invention which has come up to their idea of a cure for gray hair. We commenced using it about two months since, and if we are any judge of hair and beauty, it has made us at least ten years younger in appearance; we are beginning to look quite young, and mistake us for a young wife. The change is so slow as it would be to feel it. Idea in the head of the Duke of Buckingham. We have several old bachelors and young widows, whom we know are beginning to entertain a serious idea, and who have been taking measures for obtaining something to this effect, and we advise them not to delay any longer. If after this, they do not, they will be fools.—*St. Louis Herald.*

Congress.

WASHINGTON, Dec. 2.

SENATE.—After the reading of the President's Message, a debate sprung up, incidental to the motion to print it and the accompanying documents.

Mr. Hale attacked the positions of the President, denying altogether the charges which were imputed to a majority of the people of seven States—want of fidelity to constitutional obligations and a love of the Union. He said it was manifest that they sought to usurp the power of this Government.

Mr. Brown thanked the President for his fidelity in sounding the voice of warning against sectional strife, and took occasion to charge the reporters of Fremont with the intention of establishing slavery everywhere, and in this connection alluded to the views of Seward and others.

This called up Mr. Seward, who remarked that what he had said on that subject was not in rebuke, and referred Brown for further information to Redfield's publication of his speeches.

Mr. Wilson stated he had never entertained nor expressed the opinion that Congress had the power to abolish slavery within the States; nor had he uttered the sentiment that those with whom he acted intended to assume or exercise such power.

Mr. Mason maintained that the constant agitation of slavery brought the people of the South to the conviction that the preservation of that institution rest with themselves alone, and that if the Fremont party had been able to execute what they avowed, it would have led to a dissolution of the Union immediately and eternally.

Mr. Trumbull denied that the Republicans had any intention to interfere with slavery in the States. They had avowed the rights of the States and that the union of the States and the Constitution of the country must be preserved. He spiritedly controverted the President's remark that the Missouri Compromise was absolute, being unconstitutional—saying it had no foundation for the assertion. Adj.

HOUSE—The House was engaged all the session on the subject of Whitfield's admission, and adjourned without disposing of the question.

ST. LOUIS, Dec. 2d.

A letter to the Democrat of the 26th ult. states that the militia under Col. Titus will soon be disbanded by Gov. Geary. Gov. Geary is openly submitted to the action of Judge Lecompte in issuing a writ of habeas corpus in behalf of Hayes. It is reported that Col. Titus with 100 men will shortly leave the territory for Nicaragua.

Theatrical.

NEW YORK, Dec. 2d.

Thalberg assisted by Madame Dengl, gave a grand concert this P. M., to as many children of our public schools as could be crowded into Niblo's Garden. The occasion was much interest and the treat was greatly enjoyed, the pieces having been especially selected to suit the capacity of the children. At the close the pupils all joined in singing "Home Sweet Home."

Political.

ALBANY, Dec. 2d.

The Presidential electors of this State met at the capitol this afternoon to fill any vacancies that might be found to exist in the College. The electors chosen in two districts not answering to their names, their places were filled. It was resolved to cast the vote for President and Vice President viva voce. Adjourned to 9 o'clock to-morrow morning.

HOUSE BURGLARIZED.—On Thursday night, the house of Mr. Henry Tilden, St. Lawrence-st., this city, was entered by Burglars, the family being absent at the time. They effected an entrance through a back window. Two trunks and a bureau drawer were broken open, and about a hundred dollars in gold stolen. The house appeared to have been pretty thoroughly ransacked by the scoundrels.—*Argus.*

DR. HOWES—Dear Sir,—A your request I have made a few of your Improved Vegetable Pills, and find them to answer my highest anticipations. I used them with confidence as the ingredients of which you say they are composed are well adapted to the various diseases incident to the human system, and more particularly to derange Diarrhea, leaving the bowels in a healthy state.

Yours, &c.,

DR. J. G. COOLIDGE.

Dr. Jackson's Best—The loudest boasting and widest advertising is not always indicative of the greatest merit, although there are numerous preparations of great merit that the world would think they ought to fly a little beneath the sky; and possessed such modesty as to allow that they are good for poor mortals to be are designed for some more other at least for a trifle, a trifling to come in contact with a remedy for human ills—and such we believe to be G.W. Jackson's Cough, Consumption and Bronchitis Elixir. It is not merely a modest enunciation of its merits, but from tried and experienced use we believe it to be a very good remedy for tartar. It has cured very bad and long standing coughs and colds in a very eight hours. Try it.

OXYGENATED BITTERS.

Testimony from J. C. Barter, Collector of the Port of Ogdensburg, New York.

OGDENSBURG, December 1, 1851. Gentlemen—I find it my duty, for the greatest part of the year suffering with indigestion, dyspepsia, with a singular derangement of the liver, connected with occasional attacks of Dysentery. During the last summer I accidentally took up your Oxygenated Bitters, and have ever since been using testimonials respecting your Oxygenated Bitters in such instances, which relieved and followed in accordance with your symptoms and conditions so accurately, that I determined me upon trying them. I accordingly procured, and have used several bottles, and find in renovated strength and health satisfactory evidence that in my case, they have accomplished all that could wish.

Very respectfully, Your obedient servant,

J. C. BARTER.

Card to the Public

Bickford defines his position!

I MUST TELL my numerous friends, the good humored public, that my arrangements for the winter season are now completed, by which I am to be daily supplied with abundance of OYSTERS, FRESH FISH, CHOICE FRUIT, and other articles for the supply of my Stalls at the Market House.

Speaking of OYSTERS—I wish it understood that I furnish them raw, or cooked in any style, cold or hot, at my Eating Room, or to families or parties at any time or any place. If you wish to refresh your friends with a really nice *Oyster Stew* let Bickford know it, and it shall appear upon your table, as if by the enchantment of Aladdin's Lamp. So, too, of the richest PASTRY, in all varieties.

FRESH FISH, in all their varieties, in their season.

FRUITS AND VEGETABLES.

Bickford is devotedly thankful for past favors, and looks hopefully forward to the future. Allow me to say parenthetically, and almost pathetically, that the times are getting rather hard, and therefore it is all important that those who have neglected to pay their little bills should do so at once, for I wish to be on friendly terms with every body.

My Eating Stall at the Market is elegantly supplied, and will be found exceedingly convenient for all singers, gentlemen and ladies, and for those detained from their meals.

Call in—call in out—and all will be well.

Ever and forever more,

THOMAS BICKFORD.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be dispatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by a night passage across to fever and ague, and the delays of Bangor based upon the river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus secuting passengers by the Mail Line a *safe and short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents of Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city by C. L. BARTLETT, Agent,

Cheap & Convenient Building,

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing now in contemplation for Door Frames, Doors, Window Frames, Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, for coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions, and of superior quality, either for a new building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any and interested can examine specimens of the work at the factory, near the Rope Walk, or at the store of M. B. Jackson, on Exchange st., and neither place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and no well grounded is the business that no man should now think of building in the old and slow and imperfect methods.

Montreal, Hamilton, Toronto, Buffalo, Detroit, Cincinnati, Chicago, St. Louis, Milwaukie, St. Paul, and all parts of the Western and Southern States, and the Canadas.

Baggage checked through, and no charge for handling.

Through rates of Fare and Freight the same from Bangor and Portland as by other routes from Boston.

Travelers generally, and families in particular, moving out West will find this, which is the only Rail Road route to the West, by far the most comfortable and economical.

Passengers holding Through Tickets have no expense or trouble in transferring their baggage, from the time they leave the Station, at port of embarkation.

The Grand Trunk Railroad is completed throughout from Portland to Toronto, where regular connections are made with the Great Western and Erie and Ontario Railroads, for all parts in the Western and Southern States, and Upper Canada.

It is a Broad Gauge Track, and surpassed by any road in America for speed, safety, and comfort, and is proverbial for liberality of its equipment and management generally.

Through Tickets good, until used, and allow stopping over at any point along the line.

PROFESSOR WOOD'S HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of a doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—every scald-head—and no possible case will it fail of curing, as if by magic, nervous or periodical Headache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

Matteson, Webster Co. Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir:—I have pleasure in bearing testimony to the magic efficacy of your wonderful Hair Restorative. As far back as 1848, my hair began to exceedingly recede until the top of my head became bald and smooth as glass, and I was considered to fall into greater and more years, notwithstanding I had used many celebrated preparations for preventing it. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, after a few applications, that my hair became firmly rooted, assuming a dark color, which is its appearance now, and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly, — ETHAN BOODRICH.

Chamberville, Mass., Aug. 1, 1855.

Gentlemen—hoping that a duty is done when it is done, I feel a common call to others that are afflicted as I have been with the disease, to give their testimony in the acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots it nearly bald. I have now used it for about five months, and my hair is entirely changed to its original color, and the new hair is over three inches in length on the spots where it was bald, have also been much gratified at the healthy appearance and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully Yours, &c.,
MERCY A. STORRARD.

From Mrs. Tegetts, a well known actress in Boston.

Gentlemen—As an respects, and being such gain pleased with the Prof. Wood's Hair Restorative, I am free to say that my bald head become quite thick and entirely white. I have for the last two years been the subject of nervous fits, and the beating of those extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—

Brookfield, Mass., Jan. 29, 1855.

PROF. WOOD—Dear Sir:—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in preventing premature baldness, and a constant tendency to itching, with which I have been troubled from my childhood, and to restore the hair, which was becoming gray, to its original color. I have used none but a single bottle and have the same pleasant and proof.

Yours truly, — J. K. BRAGG.

(From the Jersey City Telegraph.)

WHAT A DIFFERENCE—this Wood's Hair Restorative! A question asked daily by hundreds. We answer with a decided affirmation, and fearless contradiction, that it is the only article known which will fully restore the hair to its original color. It will restore it to a healthy growth, stop its falling, and make it soft, pliable, and glossy. Restore it to its original color. It is not a dye, but a specific remedy. Restore it.

Professor Humphrey's SPECIFIC Homœopathic Medicines

.....FOR.....

Families, Travelers, and others

THESE Medicines have been carefully prepared, with a view of supplying a full and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be met on the spot of the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c., for whose treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which a lady finds it difficult to describe, but yet is a freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30, or 40 Pellets, and 15 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual, or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines.—In prescribing other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or lower and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and the man is able to treat himself with benefit and precision without any, or only which the business man search and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Albany, N. Y., and sold by C. B. WALKER, Agent for Maine, at 34 Walnut st.

J. RUSSELL SPALDING'S

ROSE MARY

This great and popular preparation is decidedly one of the finest and best articles in the world for the HAIR.

It imparts a richness and brilliancy, claims, ornaments and restores, embellishes, removes dandruff, relieves head ache, and has not, also been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and will can rely upon it.

Sole Proprietor, J. RUSSELL SPALDING, Manufacturing Chemist, Principal Depot, 97 Tremont st., opposite the Museum, Boston, Mass. where all orders should be addressed. The fac simile of his signature is on every bottle of the genuine.

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach, Bilious Disorders and Liver Complaints.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER.—Sir: I have been repeatedly cured of the worst headache by taking your Pills, one or two of your Pills. It seems to cleanse from a foul stomach, which they cleanse it once. If they will cure others as they do me, the world is worth knowing.

Yours with great respect, — ED. W. FRANKLIN, *Clerk of Schooner Clarion.*

PORTLAND, OREGON TERRITORY, Washington, 21, Oct. 7 Feb. 1856.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic with me I know. Their regulating action on the liver, stomach, and bowels, renders them peculiarly adapted to the wants of a military community. In the treatment of Dysentery, Diarrhœa, Liver Complaint, and Fever and Ague, I have seldom failed to cure with them. I shall continue to use them, and recommend them to my friends.

Yours, — ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HAMILTON, ONTARIO CO., MICH., Nov. 10, 1855.

Dr. Ayer: Your Pills are the perfection of medicine. They have done my family more good than I can tell you. She suffered severely with dysentery for months. Went off to the country at great expense, but grew better. She commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her bowels. They cured my daughter and her sick children of the dysentery. One of them, the child died, but it was with no fault of your Pills, which had cured it entirely, etc. Such is a sample of my family experience, which is actually good and great, will be relied here.

JOHN J. CRITES, *Druggist.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER—I have used your Pills with extraordinary success in my family and among those I am called to visit in the ministry. They regulate the system so delicately and purify the blood they are the only cathartic I have ever found that I can confidently recommend to my friends.

Yours, — J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

Gentlemen: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the impurities of the blood.

JOHN G. MEACHAM, M. D.

Dyspepsia, Scrofula, Ulcers, Erit, Tetter, Tumors, and Salt Rheum.

From a Prominent Merchant of St. Louis, Mo., 4, 1856.

DR. AYER: Your Pills are the paragon of all that is perfection in medicine. They have cured my little daughter of Scrofula, which appeared on her hands and feet in the form of Erit. Her mother has been troubled with Salt Rheum, and is delighted with blotches and pimples on her neck and face. After our child was cured, we also tried your Pills, and they have cured her. — ASA MORGHROOK.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Harris, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1855.

HONORED SIR: I should be ungrateful for the relief your medicines have afforded me, if I did not report my case to you. A cold settled in my joints, and I became incapable of walking, except with crutches, which enabled me to drag my feet along in great pain. Your Pills have entirely cured me, and I am able to walk without crutches. Notwithstanding my feeble health, I have preached twice every Sabbath since I got home, and have not suffered from my lameness. I ascribe the cure entirely to Dr. Ayer's Pills, and feel it my duty to make this statement for the benefit of others.

Very respectfully, Your obedient servant, — REV. ALFRED HARRIS.

SENATE CHAMBER, BOSTON, JAN. 15, 1856.

DR. AYER: I have seen multitudes cured by your Pills of Rheumatic Gout—in fact, I believe I have seen more than half the people I know cured by them. — VINCENT SILBY, LL.

For Dropsy, Plethora, or kindred Complaints

requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation,

and as a Dinner Pill, they are admirably adapted.

Piles, Suppression, Paralysis, Inflammations, and even Deafness,

and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in the hands of the public. Prudent consequences that follow its indiscriminate use, these pills are free from any mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the people of its virtues. Throughout every town and almost every hamlet of the American Confederacy, its wonderful cures of pulmonary complaints have made it widely known. Now, few are the families in any civilized country on this continent without some personal experience of its effects, and fewer yet the communities anywhere which have not among them some living trophy of its power over the direst and fatal of all diseases of the throat and lungs. While it is the most powerful and the yet known to man for the formidable and dangerous disease of the pulmonary organs, it is equally the best remedy for all those minor ailments which, if neglected or improperly treated, may lay the foundation for future and prolonged sufferings. Parents should have it at hand against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe that Consumption saves more lives by the occasional use of this than from any other cause. Keep it by you, and you need not be alarmed if your children take cold, you may rest assured that
